A-Cross Time Cleaning Services is a specialized company providing professional cleaning and restoration services for your home and business.

Carpets

We use truck-mounted steam cleaning machines and soap-free Procyon® cleaners. Our technicians are trained to use a high-temperature, low-moisture procedure, which results in rapid drying. For more challenging areas, we employ other methods to clean your carpets.

Area rugs

Our rug cleaning experts use high-performance equipment and advanced techniques to deep-clean and protect your area rugs.

Furniture

Our certified technicians can wet or dry clean furniture fabrics, restoring colors to like-new appearance. We can also clean other upholstered items like your pool table.

Stain Removal

We have a solution for virtually every stain. Our technicians are skilled at removing pet stains and odors.

Carpet Fiber & Fabric Protection

Help prevent re-soiling by having us treat your carpet and upholstery with soil-resistant Scotchgard™ or Teflon® coatings. We can also apply fire-retardant treatments to your fabrics.

Tile Floors

Our three-step process using Procyon® Tile, Grout and Stone Cleaner can restore your grout and tile to their original lustrous beauty.

Drapery Cleaning

Our technicians can wet clean or dry clean your draperies where they hang. This efficient method saves you time and money. We also guarantee no shrinkage.

Window Coverings

We are equipped to clean all Hunter Douglas® fabric window coverings including Luminette privacy sheers, Silhouette and Vignette window shadings, Alouette light louvers, as well as most fabric window coverings.

Ultra-Sonic Blind Cleaning

We use a state-of-the-art ultra-sonic machine to safely clean blinds. We pick them up, clean them in our ultra-sonic bath and re-hang them for you.

Vehicles

You can have your car, truck, SUV or RV's carpet and upholstery cleaned while we are at your home.

Flood Restoration

If you have the misfortune to experience a disaster, leave cleaning-up to us! We coordinate all aspects of cleaning

and restoration, including drying and cleaning the carpet, upholstery and draperies.

Cleaners & Disinfectants

For all our carpet and rug cleaning services, we employ only the most environmentally friendly materials. We use and are authorized distributors for Procyon® cleaners.

Procyon®

These cleaners are all natural, soap-free, odor-free, nontoxic and biodegradable. Visit www.plusmanufacturing.com for more information.
